Building Resilience and Reducing Trauma in TANF and Workforce Program Leaders and Staff

Project IMPROVE

August 25, 2022

Objectives

- / Connect TANF programs across the country in grappling with a common challenge—to manage staff trauma and improve resilience**
- / Learn from skilled, experienced program leaders about how to support staff and create an organizational culture that is trauma informed**

Polling questions

- / How would you describe your level of stress over the past month?**
- / What has been the level of stress within your organization over the past year?**
- / To what extent has your organization experienced turnover?**
- / What efforts has your organization made to support you and your colleagues?**
